PROTECTION SYSTEMS ENGINEERED FOR LIFE

A.C.E.S.

THE NEXT GEN LOAD CARRIAGE SYSTEM

HAP855

- The HAP855 is a stand-alone NUJ0101.06 Lv III+ (Unarmoured) battle-suit, high-volume production HAP platform.
- Manufactured using advanced US and European materials and welding processes, technologies to provide excellent ballistic protection performance.
- Offered in 3 conventional SAPI sizes for logistical simplicity and interoperability.
- Multi-curve geometry shaped for maximum comfort and ergonomics.
- Maintains ballistic performance at +45°C and -35°C to cover a range of end user environmental requirements.
- Maintains ballistic performance post durability testing requirements in accordance with NIJ 0101.06.
- Covering in a seam-welded and bonded layer of ball-weaving and waterproof polyurethane jacketed SBCU Region for superior environmental protection.
- HAP ballistic performance guaranteed for five years.

Product	Size	Dimensions (mm)	Weight (kg)	Thickness (mm)
100-100-0002	SAP Small	252 x 198	1000	20
115-100-0002	SAP Medium	281 x 248	1700	20
130-100-0004	SAP Large	305 x 297	2500	20

Manufacturing Tolerances: Width and Length dimensions: 10% Dev. Thickness: 100% Dev. Thickness tolerance is 0.5%

Mode 3 160 Up-Armoured System

When maximum protection is non-negotiable, the 160-degree up-armoured rump delivers unparalleled defence using the standard load carriage system (in the ERGO Belt as its foundation, and fixed support with modular, heavy-duty refrigeration includes advanced front, side, rib, upper arm protectors, and comprehensive coverage with groin, sternal, and thigh protectors, engineered for the most demanding combat scenarios. This select ensures you see any threat head-on with confidence.

System Weight Config 1: Plates + Carrier 155kg +/- 4%
System Weight Config 2: Plates + Carrier 182kg +/- 4%

Comprehensive Coverage

When the protection is not negotiable, the 160-degree up-armoured rump delivers unparalleled defence using the standard load carriage system (in the ERGO Belt as its foundation, and fixed support with modular, heavy-duty refrigeration includes advanced front, side, rib, upper arm protectors, and comprehensive coverage with groin, sternal, and thigh protectors, engineered for the most demanding combat scenarios. This select ensures you see any threat head-on with confidence.

Body Mapped for Maneuverability

When the protection is not negotiable, the 160-degree up-armoured rump delivers unparalleled defence using the standard load carriage system (in the ERGO Belt as its foundation, and fixed support with modular, heavy-duty refrigeration includes advanced front, side, rib, upper arm protectors, and comprehensive coverage with groin, sternal, and thigh protectors, engineered for the most demanding combat scenarios. This select ensures you see any threat head-on with confidence.

Complete Modularity

When the protection is not negotiable, the 160-degree up-armoured rump delivers unparalleled defence using the standard load carriage system (in the ERGO Belt as its foundation, and fixed support with modular, heavy-duty refrigeration includes advanced front, side, rib, upper arm protectors, and comprehensive coverage with groin, sternal, and thigh protectors, engineered for the most demanding combat scenarios. This select ensures you see any threat head-on with confidence.
